DETAILED ACTION

1. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Balaban et al. (4,464,675).

Balaban et al. discloses in figures 1, 2a and 2b, a filter (20) for extracting a desired frequency band from an input signal including a shift register having a plurality of register (LI, TI1-TI227) coupled in cascade control by a synchronization clock (IFC), and an arithmetic subtracting unit having an inverter (72) and an adder (74) for obtaining a difference between an input data stored in the output end (TI227) and the input end (LI) of the shift register to form an output of the band pass filter; wherein the length of the shift register (LI+TI1 to TI227 = 228) is equal to the sum of 1 and an integer part of a ratio of a half of a signal sampling rate ($IFC = 3.58$ MHz, see col. 4, lines 64-65) of the input signal to a desired band pass frequency ($15,734/2$ Hz, see figure 12d and col. 12, lines 64-68) as claimed.

2. Applicant's arguments filed on 07-04-2006 have been fully considered but they are not persuasive because in Balaban et al., the comb filter 20 which consists of a shift register having registers (LI, TI1-TI227), inverter (72) and an adder (74) is seen as the claimed band pass filter. In the comb filter 20, as shown in figures 2a and 2b, an arithmetic subtracting unit, as the combination inverter (72) and an adder (74), clearly obtains a difference between only an input data stored in the output end (TI227) and the input end (LI) of the shift register to form an output of the filter as claimed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
